

CURRICULUM OVERVIEW

Neonatal Intensive Care

ThriveAP's Onboarding Support Programs

ThriveAP's Onboarding Support programs help Nurse Practitioners (NPs) and Physician Associates (PAs) build role-specific readiness and confidence as they enter a new specialty, role, or care setting through on-demand educational material. Each recorded webinar session is designed to encourage deeper understanding of clinical concepts through case studies and applied learning. Participants also benefit from virtual coaching and mentorship with experienced faculty.

Guidelines and Developmental Partners

This program was developed using high-yield topics identified from the Neonatal Nurse Practitioner Certification Examination Blueprint, the neonatal/newborn medicine section of the NCCPA CAQ-Pediatrics content outline, and the American Board of Pediatrics Neonatal & Perinatal content outline, in conjunction with input from subject matter experts. A dedicated curriculum committee continuously reviews and updates the content to maintain alignment with evidence-based practices and identified medical knowledge gaps.

Format: Asynchronous Webinars Delivered Weekly Over 3 Months

CE/CME: 15+ hours accredited by AAPA & ANCC

Curriculum Didactic Topics

- Newborn Transition & the Newborn Exam
- Delivery Room Readiness & Neonatal Resuscitation

About ThriveAP

ThriveAP is not just an onboarding program, it's an APP workforce transformation solution for health systems. By taking advantage of both the 12-month Transition to Practice (TTP) program and our 3-month Onboarding Support programs, employers can build long-term retention strategies, ensuring cost savings, efficiency, and improved patient access to care.
