

## CURRICULUM OVERVIEW

# Clinical Electrophysiology

## ThriveAP's Specialty Upskilling Programs

ThriveAP's Specialty Upskilling programs help more tenured Nurse Practitioners (NPs) and Physician Associates (PAs) expand specialty knowledge, strengthen clinical confidence, and support evolving patient care needs through on-demand educational material. Each recorded webinar session is designed to encourage deeper understanding of clinical concepts through case studies and applied learning. Participants also benefit from virtual coaching and mentorship with experienced faculty.

## Guidelines and Developmental Partners

This program was developed in collaboration with the Academy of Physician Associates in Cardiology (APAC) and leading electrophysiology experts to address high-priority topics in clinical electrophysiology. A dedicated curriculum committee continually reviews and refines the content to ensure alignment with current evidence-based practices, evolving technologies, and identified gaps in clinical knowledge.

## Format: Asynchronous Webinars Delivered Weekly Over 3 Months

## CE/CME: 13+ hours accredited by AAPA & ANCC

## Curriculum Didactic Topics

- Cellular Electrophysiology, Cardiac Anatomy and ECG Signal Acquisition
- Antiarrhythmic Pharmacology & Drug-induced Arrhythmias
- Bradyarrhythmias and Conduction Disease
- Supraventricular Tachycardias (AVNRT, AVRT, Focal AT, IST)
- Atrial Fibrillation and Flutter I & II - Mechanisms & Evaluation
- Ventricular Arrhythmias I & II - Pathogenesis / Acute Care & Secondary Prevention / SCD
- Cardiac Implantable Electronic Devices I & II
- EP Laboratory & Catheter Ablation Science
- Remote Monitoring & Device Troubleshooting
- Inherited Conditions / Channelopathies & Special Populations
- Syncope, Metabolic and Post-Operative Arrhythmias
- Future Directions

## About ThriveAP

ThriveAP is not just an onboarding program, it's an APP workforce transformation solution for health systems. By taking advantage of both the 12-month Transition to Practice (TTP) program and our 3-month Specialty Upskilling programs, employers can build long-term retention strategies, ensuring cost savings, efficiency, and improved patient access to care.
