

## CURRICULUM OVERVIEW

# Endocrinology

## ThriveAP's Specialty Upskilling Programs

ThriveAP's Specialty Upskilling programs help more tenured Nurse Practitioners (NPs) and Physician Associates (PAs) expand specialty knowledge, strengthen clinical confidence, and support evolving patient care needs through on-demand educational material. Each recorded webinar session is designed to encourage deeper understanding of clinical concepts through case studies and applied learning. Participants also benefit from virtual coaching and mentorship with experienced faculty.

## Guidelines and Developmental Partners

This program was developed by endocrinology experts to address timely, high-priority topics in endocrinology practice. A dedicated curriculum committee continuously reviews and updates the content to maintain alignment with evidence-based practices, current billing and coding standards, and identified medical knowledge gaps

## Format: Asynchronous Webinars Delivered Weekly Over 3 Months

## CE/CME: 13+ hours accredited by AAPA & ANCC

## Curriculum Didactic Topics

- Diabetes From Pathophysiology to Pharmacology
- Continuous Glucose Monitor Reports: Interpretation and Management
- Developing and Modifying an Insulin Management Plan
- Type 1 Diabetes Screening, Diagnosis, and Early Interventions
- Dietary Counseling in Diabetes
- Hypothyroid Conditions
- Hyperthyroidism: Diagnosis and Management
- Osteoporosis: Diagnosis and Management Strategies
- Male Hypogonadism
- Weight Management: Therapeutic Interventions
- Adrenal, Parathyroid, and Pituitary Disorders
- Practical Management of GLP1s and SGLT2s: Tips, Tricks, and Pearls of Practice
- Pediatric Type 1 Diabetes Management and Lifestyle Management

## About ThriveAP

ThriveAP is not just an onboarding program, it's an APP workforce transformation solution for health systems. By taking advantage of both the 12-month Transition to Practice (TTP) program and our 3-month Specialty Upskilling programs, employers can build long-term retention strategies, ensuring cost savings, efficiency, and improved patient access to care.
