

Empower Your NPs & PAs in Adult Medicine

Accelerate onboarding, improve provider confidence, and expand access to high-quality care for adults through structured education, coaching, and professional development.

KEY OUTCOMES

Improved Patient Access to Care

Enable NPs and PAs to provide evidence-based care with greater confidence and efficiency.

Accelerate Provider Ramp-Up

Reduce onboarding time and support providers in reaching full productivity faster.

Strengthen Provider Retention

Invest in professional development that increases engagement, satisfaction, and long-term retention.

Optimize Workforce Performance

Improve documentation, coding, communication, and clinical decision-making.

PROGRAM SNAPSHOT

12-Month Comprehensive Program

46 weeks of live instruction

1:1 Faculty Mentoring

100+ hours of CME/CE credit

Rolling Enrollment

Peer to Peer Learning Community

Dedicated Client Success Manager

PROGRAM OVERVIEW

ThriveAP's Adult Medicine Primary Care Program is a live and online educational curriculum to help employers support nurse practitioners (NPs) and physician associates (PAs) to improve patient access to care and efficiently address the unique needs of adult patients.

The courses were designed in alignment with the Gerontological Advanced Practice Nurses Association (GAPNA) as well as the Adult Gerontology Clinical Nurse Specialist Certification Exam Blueprint.
