

Empower Your NPs & PAs in Oncology

Accelerate onboarding, improve provider confidence, and expand access to high-quality oncological care through structured education, coaching, and professional development.

KEY OUTCOMES

Improved Patient Access to Care

Enable NPs and PAs to provide evidence-based care with greater confidence and efficiency.

Accelerate Provider Ramp-Up

Reduce onboarding time and support providers in reaching full productivity faster.

Strengthen Provider Retention

Invest in professional development that increases engagement, satisfaction, and long-term retention.

Optimize Workforce Performance

Improve documentation, coding, communication, and clinical decision-making.

PROGRAM SNAPSHOT

12-Month Comprehensive Program

46 weeks of live instruction

1:1 Faculty Mentoring

100+ hours of CME/CE credit

Rolling Enrollment

Peer to Peer Learning Community

Dedicated Client Success Manager

PROGRAM OVERVIEW

ThriveAP's General Oncology Program is a 12-month intensive curriculum to help employers attract, retain and train nurse practitioners (NPs) and physician associates (PAs) to develop confident and competent oncological care.

ThriveAP's General Oncology Program is a comprehensive, guided curriculum created in partnership with, and endorsed by the Association of PAs in Oncology (APAO), ensuring relevancy and alignment of educational programming for hematological and oncological care.
